

# MiniSan

## HAND FOAM DISPENSER

With its slim profile, double-sided access to foam sanitizing dispensers, and advertising display panel, the MiniSan is ideal for indoor applications. Whether in hospitals, restaurants, fitness centers, schools, warehouses, supermarkets, or other indoor venues, the MiniSan is literally a perfect fit.

### FEATURES:

- Ideal for warehouses, supermarkets, restaurants, fitness centers, business offices, and other indoor spaces where people gather.
- Lightweight and easy to transport.
- Holds up to two dispensers for multiple person use – saving time and frustration among users who don't want to wait to sanitize their hands.
- Double-sided display panel can be customized with decals for advertising.
- Features granite finish that is suitable for display in any number of indoor environments.
- Alcohol-Free Antiseptic Foam kills 99% of germs on hands – even when water is not available.

► Easy-to-fill base gains added stability when filled with water or sand.
